NOTIFICATION

Adaptation Committee webinar on the global goal on adaptation 11 May 2021 12.30–2 p.m. Central European Summer Time

Pursuant to decision 1/CMA.2, paragraph 14, the Adaptation Committee is hosting a webinar on approaches to reviewing overall progress in achieving the global goal on adaptation. It will provide an opportunity for Parties, observers, adaptation practitioners and other experts to reflect on the approaches, their advantages and limitations, and associated challenges.

The webinar will be guided by the following questions:

1. Which principles and criteria should guide the consideration of approaches to reviewing overall progress towards the global goal on adaptation? In this context, which approaches are most feasible to be implemented in the short and long terms and why?
2. What challenges and needs should be accounted for when considering approaches to reviewing overall progress towards the global goal on adaptation? How might these challenges be overcome?
3. Are there any other approaches, ideas, factors, etc., that the Adaptation Committee should consider as it moves forward in its work on reviewing overall progress towards the global goal on adaptation?

The agenda for the webinar and further details will be made available at <https://unfccc.int/event/AC-webinar-GGA>.

Yours sincerely,

Youssef Nassef
Director
Adaptation division

Distribution: To Parties and observer States through their national focal points for climate change and diplomatic missions accredited to the Federal Republic of Germany, as well as United Nations organizations, related organizations and admitted observer organizations.
