Subject: Apply to be Nominated to AC20

Dear Members of the RINGO Constituency,

You are invited to apply to be nominated by RINGO to the [20th meeting of the Adaptation Committee](#), which will be held virtually from September 7-10, 2021. For more specifics, please see the Secretariat's notification of these meetings, which is attached.

If you are interested in attending, please email the attached [RINGO application](#) and [UNFCCC registration form](#) (as Word documents) to tracy@ringofocalpoint.org by **August 9, 2021**. **(NOTE: Please do not email these forms directly to the UNFCCC.)**

When selecting nominees, the RINGO Steering Committee considers expertise, reasons for wanting to participate, and how individuals plan to report back to the RINGO membership. It is expected that selected RINGO members will attend the meeting; applicants should understand that we cannot replace nominees easily and so their decision to be nominated but not attend prevents others from participating. The RINGO Steering Committee wants you to know that Steering Committee members who apply do not participate in the selection process.

Preference will be given to applicants who:

- have already been nominated by our constituency to an AC meeting; or
- have followed the work of the AC; or
- have specific and documented research or practical expertise on AC issues; or
- are from developing countries and interested in doing work on AC issues.

Please also understand that RINGO gives priority to applicants who are not seeking an invitation from another constituency.

We look forward to hearing from you!

Best,

Tracy Bach and Beth Martin
