MESSAGE TO PARTIES AND OBSERVERS

Call for Inputs by the Katowice Committee of Experts on the Impacts of the Implementation of Response Measures – deadline extended

The COP, CMP and CMA by its decision 4/COP.25, 4/CMP.15 and 4/CMA.2 mandated the Katowice Committee of Experts on the Impacts of the Implementation of Response Measures (KCI) to receive input from experts, practitioners and relevant organizations in order to implement some activities in its workplan.

On 16 June 2021, the KCI invited inputs with respect to activity “identify country-driven strategies and best practices on just transition of the workforce and creation of decent work and quality jobs and on economic diversification and transformation focusing on challenges and opportunities from the implementation of low greenhouse gas emission policies and strategies towards the achievement of sustainable development” by inviting submissions to provide concrete examples and best practices on:

- (a) Just transition of the work force and creation of decent work and quality jobs;
- (b) Economic diversification and transformation.

The deadline for receiving submissions has been extended with a revised deadline of 3 September 2021. The KCI looks forward to receiving relevant submissions at KCI@unfccc.int by **3 September 2021. Respondents are encouraged to use the outline** (see annex) for each example while making their submission. For more information please refer to [KCI 4 meeting report](#)¹.

Distribution: To Parties and observer States to the United Nations Framework Convention on Climate Change through their national focal points and diplomatic missions accredited to the Federal Republic of Germany, United Nations Secretariat units and bodies, specialized agencies and related organizations, as well as intergovernmental and non-governmental organizations admitted as observers by the Conference of the Parties.

Page 2

Key characteristics of the example may include strategy's/policy's geographical coverage, sector coverage, implementation process including assessment of impacts of policy if done. The example should focus on challenges and opportunities, encountered while implementing low greenhouse gas emission policies and strategies towards the achievement of sustainable development, that have led to country-driven strategies and best practices on just transition of the workforce and creation of decent work and quality jobs and on economic diversification and transformation.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'James Grabert', written over the printed name.

James Grabert
Director, Mitigation division

Annex

Outline for the concrete examples

- 1.** Concrete examples of country-driven strategies and best practices on just transition of the work force and creation of decent work and quality jobs (outline to be followed for each example)
 - (a)** Title
 - (b)** Key characteristics
 - (c)** Description of low-GHG-emission strategies or policies.
 - (d)** Impacts of identified strategy or policy on just transition of the work force and creation of decent work and quality jobs
 - (e)** Identified challenges, opportunities and stakeholder involvement
 - (f)** Lessons learned

- 2.** Concrete examples of country-driven strategies and best practices on economic diversification and transformation (outline to be followed for each example)
 - (a)** Title
 - (b)** Key characteristics
 - (c)** Description of low-GHG-emission strategies or policies.
 - (d)** Impacts of identified strategy or policy on economic diversification and transformation
 - (e)** Identified challenges, opportunities and stakeholder involvement
 - (f)** Lessons learned
