Subject: [Allobservers] Global call for innovative policy solutions in averting, minimizing and addressing loss and damage due to slow onset events

Dear Designated Contact Points,

We are pleased to share with you a global call for innovative policy solutions, issued by the expert group on slow onset events of the Warsaw International Mechanism for Loss and Damage.

The expert group invites you to share unique, innovative and/or transformative policy-related ideas to advance efforts in addressing loss and damage associated with:

- (i) Glacier retreat;
- (ii) Sea-level rise and salinization; and/or
- (iii) Desertification.

The expert group aims to promote new ideas for solutions to developing countries, using the UNFCCC Warsaw International Mechanism as the platform to elevate ideas across regions, countries, communities and other stakeholder groups.

The deadline for submission is 31 August 2021.

For further information on criteria and how to submit your idea, [click here](#).

Please share this call widely in your network. The group looks forward to receiving many ideas which can be promoted in future activities of the expert group and under the Warsaw International Mechanism.

Kind regards,

Observer Relations team
