CDR Executive Education Program

As your company accelerates toward net-zero, carbon removal is no longer optional. It's essential.

Get the knowledge and tools to lead in the emerging carbon removal economy.

> This course empowers procurement decision makers with the confidence to turn carbon removal from project level contracts into strategic investments.
>
> Jen Wilcox

Train your climate leaders

Understand the Carbon Removal Market: Evaluate suppliers, credits, and MRV standards.

Build Internal Expertise: Address residual and Scope 3 emissions with confidence.

Navigate Global Polic: Align removals with Article 6, SBTi, and future compliance regimes.

Accelerate Implementation: Bridge strategy, procurement, and investment to take action.

Kleinman Center for Energy Policy

Penn Engineering

Empower Your Net-Zero Strategy Team
